

MARINE z e r o

INDEPENDENT & TECHNOLOGY AGNOSTIC SUPPORT

OVER 40 YEARS EXPERIENCE
WITH COMPLEX ELECTRIC
PROPULSION SYSTEMS

OUR MISSION IS TO SUPPORT THE MARITIME INDUSTRY ON ITS JOURNEY TO ZERO EMISSIONS

Marine Zero is a unique support service focussed on helping owners and operators realise their emission reduction goals. Focussed on marine propulsion and associated systems we support by providing a completely independent assessment of both the requirements and available technology.

KEY SERVICES:

- Power & Propulsion System Concept Design
- Shore Power & Refuelling Feasibility Studies
- Low & Zero Emission Propulsion Feasibility Studies
- Technology Assessment & Feasibility
- Electrical System Design & Documentation
- Project Management including build supervision
